

ASCTE
FOUNDATION

MARCH 2024 DONOR UPDATE

Air, Space, and Missile Defense Association

We are thrilled to announce that the Air, Space, and Missile Defense Association has generously donated \$50,000 to the Alabama School of Cyber Technology and Engineering. We are honored to have ASMDA as one of our Partners in Education, and we can't wait to see the incredible opportunities this partnership will bring to our students. Thank you, ASMDA, for your support.

Leadership Alabama

ASCTE had the honor of hosting Leadership Alabama, providing a platform for distinguished leaders across the state to come together, learn from one another, and chart a course for the future.

NBC News

ASCTE is making waves! This week, NBC News made a special visit to Huntsville to highlight the Rocket City! While in town, they stopped by campus to film for an upcoming segment on the future of education. We are so proud of our program, our students, and our campus! We will post the segment when it's released in the next couple of weeks.

Fund Celebration

ASCTE's 4th annual fund celebration was a remarkable success, with over \$100,000 raised to construct a new learning pavilion on campus. Our families and team deserve immense appreciation for making this possible. We are extremely proud of our achievement and look forward to continuing our efforts to create a better educational experience for our students.

UACTF Cybersecurity Competition

We're proud to have taken 1st place in Division 2 and 3rd place in Division 1, with our teams bringing home numerous achievements and awards!

Alabama Historical Civil Rights Trail

A group of ASCTE students had an incredible experience visiting multiple sites along the Alabama Historical Civil Rights Trail.
